Multifunctional Nanomaterials
2014 Research Experiences for Undergraduates
May 19 – July 25
West Virginia University

Experience a unique combination of multidisciplinary research, educational programs, and fun team-building activities. Participants are involved in ongoing research programs in the field of nanotechnology with applications to environmental monitoring, early disease detection, biometrics, and energy efficiency.

STIPEND: $5,000/summer + room & board

Review of completed applications will begin on/after February 14, 2014. Applicants will be admitted on a rolling basis until all spots are filled.

Applicants should be rising Sophomore, Junior, or Senior undergraduate students majoring in science, engineering, or mathematics. Underrepresented minorities, women, persons with disabilities and veterans of the U.S. Armed Forces from primarily undergraduate institutions in West Virginia and the Appalachian region are especially encouraged to apply.

Application forms, information on specific faculty research interests, and other information on the NanoSAFE NSF-REU site can be obtained at: http://nanosafe.wvu.edu/education/undergraduate-programs/reu.
